Dear Ginny,

Attached is Bountiful Brookline's submission for the 2010 Fall Small Grants Program and supporting documentation. It has been a very rewarding year as we have been able to accomplish so many projects and host a number of popular events in our community. We are especially grateful for the support the fund gave us last year and have been thrilled to see the fruits of our labor as a result of that first grant.

This year we are applying to the Small Grants Program to obtain funding for three internship positions to support our need to build capacity as a community organization. We are excited by the opportunity to engage up to three year long interns to support our work through communications/ marketing projects, administrative and development work and for program coordination in the garden and in the community.

Thank you for the opportunity to submit this application. We look forward to continuing our affiliation with the New England Grassroots Fund.

Kind regards,

Cathy Neal
Director
Bountiful Brookline
