

New Hampshire Local Energy Action Profiles

Communities around New Hampshire are taking action to improve energy efficiency and adopt renewable energy to reduce environmental and financial impacts.

The Action: give a brief description of the project.

When was the project completed & how long did it take from start to finish?

What elements made this project a success?

What were the main challenges?

List the key players and their roles.

Roughly, what was the final cost and how was it funded?

What were the results of this action after it was completed?
(Financial savings, energy savings or environmental benefits?)

Any advice for other communities interested in undertaking a similar energy action?

TYPE OF PROJECT

- Renewable Energy
- Energy Efficiency
- Transportation
