

LIVING ECONOMY TRACK

Stage 1: Identify Desired Results

Established Goals

1. Understand how to prioritize and launch grassroots projects focused on living economy organizing;
2. Understand how grassroots projects can get to root causes within living economy work;
3. Understand how grassroots work furthers regional/national living economy strategies & networks;
4. Understand considerations in measuring impact of living economy efforts; and
5. Understand how living economy efforts work can create co-benefits across other (issue) areas.

Enduring Understandings

Participants will understand ...

- A. How to determine first steps towards living economy organizing;
- B. How to develop efforts to address root causes;
- C. How grassroots projects contribute to regional living economy impact(s);
- D. How to develop a basic evaluation strategy to assess impacts; and
- E. How to prioritize co-benefits with other (issue) area projects/campaigns.

Essential Questions

Participants will seek deeper understanding through considering...

- A. How do I start a living economy related project in my community?
- B. How can my group's work address root causes within living economy organizing?
- C. What overlap does my work have with regional living economy strategies & networks?
- D. How does my group evaluate the impact of our work?
- E. What co-benefits can I achieve through my new economy organizing?

As a result of this track, participants will be able to...

1. Conduct an analysis of project options to launch or deepen community-based living economy projects;
2. Connect local organizing work to regional strategies & networks;
3. Employ basic strategies to assess the impact of living economy related projects; and
4. Assess co-benefits that can be met through living economy organizing.
