

New England Grassroots Environment Fund

2019 Sponsorship Opportunities

*"The engagement of participants is among the best I've seen at any conference."
"I was able to see through the lenses of others due to the diversity of people and programs represented."*

-2018 participants

Thank you for your interest in sponsoring our 2019 Convenings.

Our convenings attract changemakers from all over New England. They are a diverse crowd, representing a broad spectrum of socioeconomic status, age, and racial, cultural and gender identities, hailing from rural, urban and suburban areas. Some are professionals in this work, others are volunteers who specialize in other fields. All share a commitment to co-leading community level transformation at the intersection of environmental, social and economic justice. If your organization's offerings align with our demographic, Grassroots Fund sponsorship is an ideal way to both support their efforts and get your brand in front of them.

Sponsorship dollars make our events ever more accessible and relevant to change-makers.

Instead of enhancing our event budgets' bottom lines, your contribution directly supports participants through the availability of sliding scale fees, scholarships, expense reimbursements, quality, local (when possible) food, and on-site childcare and language interpretation. Sponsor support also underwrites the coordination of steering committees, which helps ensure content relevancy since a diverse and representative set of stakeholders contribute to each event's most critical decision making

2019 Grassroots Fund Convenings include two day-long RootSkills workshops, two day-long Catalyst Convenings, four Pop-up Offices, and eight RootSkills webinars. More than a thousand changemakers will plan, present and/or participate at these events. Your commitment will also be noticed by our 10,000+ email subscribers and social media followers leading up to, during and after each event. Plus, an untold thousands more will see the connection between our two brands in the way we most prefer: by word-of-mouth and through person-to-person and group-to-group networking.
