

Weatherization Barnraising

Sunday, May 31

1:00—5:30 pm

First Parish Unitarian Universalist Church

3 Church St. in Harvard Square, across from the movie theater

The federal government hasn't cut carbon yet, so let's do it ourselves!

- Help to weatherize a historic building and community resource
- Learn skills you can take back to your own home
- Make new friends
- Share food and celebrate with a live band

The Work List Includes:

- Work behind the church organ, fixing 3 giant 35' tall windows
- Install interior storms that unzip for the summer months
- Make old windows less rattling and drafty with a few inexpensive fixes
- Change air conditioner filters to make them much more efficient and much more...

See parts of a historic church in Harvard Square you'd never get to see normally!

Organized by the Home Energy Efficiency Team (HEET), a Cambridge-based co-op bringing neighbors together to weatherize our homes and take the energy future into our own hands. <http://www.heetma.com/>

Co-sponsored by the Cambridge Energy Alliance.

Thanks to Jim Devine of Advanced Energy Panels for assisting with this event.
